Subject: Mary Street

I use Mary Street on a regular basis to access my property at 15600 FM 2769. I do respectfully request that a gate be allowed in the variance if passed.

The dead end section of Mary Street has a history of dumping and other illegal activity that needs to be considered in the communities best interest.

I hope that council consider only the merits of the application in the communities best interest and not as a popularity contest or forum to bash other residents.

Thank you for your service and consideration.

Subject: May 18 city council meeting-Beck variance

City secretary: please read or acknowledge this letter in support of Ken and Joyce Beck's request for a variance. thank you

I support Ken and Joyce Beck's request for a variance on their family home site called Thistle Dew Ranch.

This property has developed road access to it's entrance. There are no more potential home sites beyond this entrance and as such it is a dead end with no further continuance to another road. To finish off the road beyond their drive would just create a possible dumping ground; this area has had large items deserted there. Some of the items I have seen left there were: a large heavy sofa bed, artificial Christmas tree, broken mirror and other refuse. There is no purpose for this road extension; it will only be a source of future problems with no positive benefits.
