This information has been requested previously and sent to the AG for an opinion and it would be a shame to waste tax dollars on legal opinions that the legal professionals hired by this village council should already know. These are public funds being spent by elected officials in what is essentially in our best interest. I consent to any allowable redactions under the TLGC.

Please email this public information.

I would like to request that someone from this village acknowledge confirmation of receipt of this request.

Thank you,
Jana Nace
