Easy-to-Use Survey Editor

Create surveys with ease using our advanced editor. Choose from 14 question types, including multiple choice, free text, and Likert scales

Powerful Reporting & Filtering

Watch your results in real time as they come in. Create filters to analyze your data and reports to share it. Export raw data goodness to Excel, PDF, CSV, Google Docs, and XML format.

Customize Your Looks

Use your CSS wizardry to customize how your surveys look. Change the font, size, color, and add HTML, images, and videos.

Collect Responses Everywhere

E-mail the survey link to your audience, use it in a banner on your website, or use our iOS app to collect responses anywhere.

Other Great Features

Invite participants via e-mail

Collect responses on iPad, iPhone, and iPod Touch

Question branching / skip logic

Export raw data to Excel, PDF, Google Docs, and XML format

Share your results with customers and employees

Create surveys in any language

SSL support for added security in surveys

Full access to the survey CSS

Custom start and finish messages as well as redirects

Close survey after certain date or response quota has been reached

Password and IP address participant restrictions

E-mail, RSS and HTTP POST notifications of new responses

WordPress support built-in

Add images, videos, and content from YouTube, Flickr, Google Maps, and many more
